

How to make your own Elementouch

Yoshiteru Maeno (Kyoto University)

① Cut into three sheets. From the top [pattern sp] [d] [f].

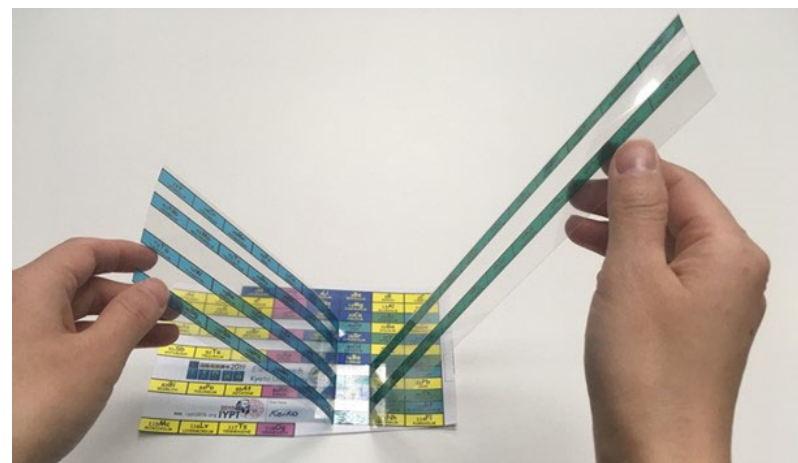

② You can write your name on [sp].

③ Tape [d] to [sp] (let's align the atomic numbers). Tape it from both the front and back sides.

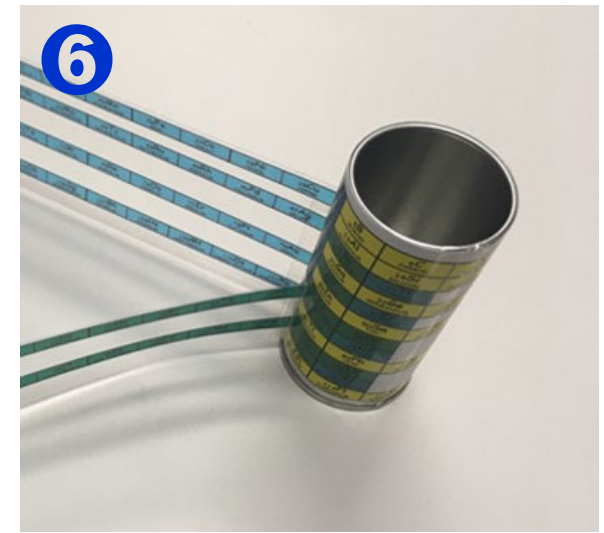

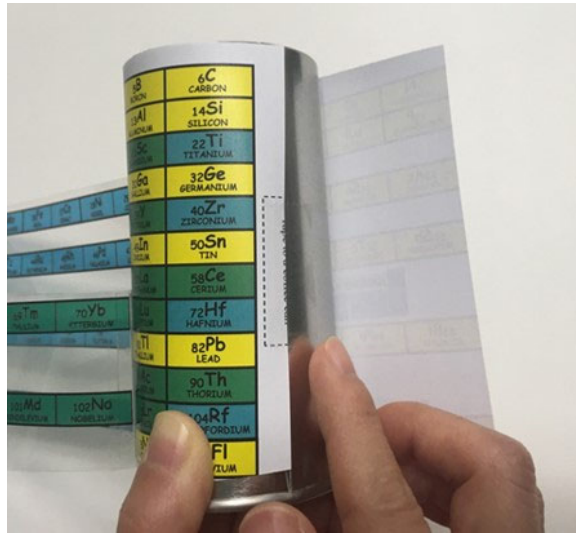

④ Follow the same procedure to fix [f].

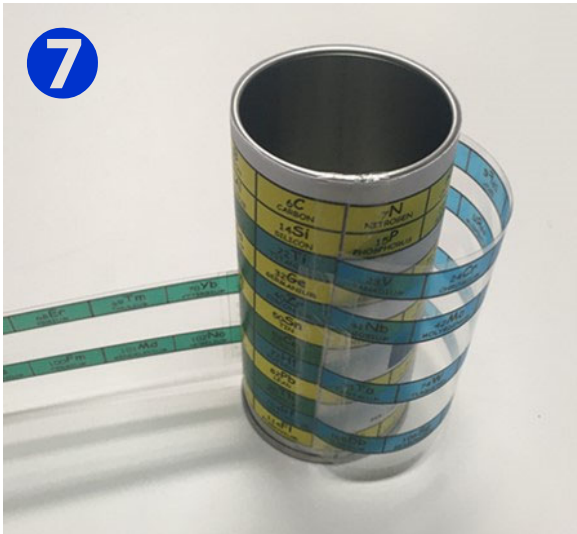

It looks like this.

⑤ Secure the end of [sp] to the can with tape and wrap it around the can.

⑥ Tape [sp] from top to bottom.

⑦ Secure [d] with tape around [sp].

⑧ Follow the same procedure to fix [f].

⑨ Completed!
